

GUARANTEED GPA CUTOFFS FOR ENGINEERING MAJORS		
	STUDENTS ENROLLED IN PREP STARTING FALL 2017	STUDENTS ENROLLED IN PREP STARTING FALL 2018 AND AFTER
Competitive Review 3.75 overall & sGPA + competitive review	Bioengineering Computer Science Mechanical Engineering	Bioengineering Computer Science Mechanical Engineering
Restricted Capacity 3.75 overall & sGPA	n/a	Computer Engineering Electrical Engineering
Limited Capacity 3.50 overall & sGPA	Aerospace Engineering Computer Engineering	Aerospace Engineering
Moderate Capacity 3.25 overall & sGPA	Civil and Environmental Engineering Electrical Engineering Industrial Engineering	Civil and Environmental Engineering Industrial Engineering
Open Capacity 3.0 overall & sGPA	Agricultural and Biological Engineering Engineering Mechanics Engineering Physics Materials Science and Engineering Nuclear, Plasma and Radiological Engineering Systems Engineering and Design	Agricultural and Biological Engineering Engineering Mechanics Engineering Physics Materials Science and Engineering Nuclear, Plasma and Radiological Engineering Systems Engineering and Design

Notes:

- Competitive Review majors (Bioengineering, Computer Science, and Mechanical Engineering) are not guaranteed admission based on GPA. Admission will be based on a holistic application review by the College of Engineering and the space available in that competitive major.
- Although the listed criteria provide guaranteed admission into majors (except Competitive Review majors), all applications are reviewed holistically. The guaranteed admission criteria does not represent a minimum cutoff for admission.
- sGPA or Specialized GPA is the cumulative GPA of all math, science, and Engineering courses taken at Illinois.
- Civil and Environmental Engineering has been moved to “Moderate Capacity” from “Limited Capacity” as of October 2018 for all students in PREP.
